An authoritative overview
of how ICTs are being
deployed across the
region to facilitate
socioeconomic
development.
Nine important
themes covered . . .

DIGITAL REVIEW of *Asia Pacific*

2003/2004

<dirAP>

336 pages. 210 X 297mm. Includes key statistics and bibliography.

The 2003/2004 edition covers 27 economies and a special chapter on the Pacific Islands with special focus on nine important areas:

- Local Online Content
- Online Services
- Industries
- Key National Initiatives
- Enabling Policies
- Regulatory Environment
- Open Source Movement
- Research and Development
- Trends

The contributing authors are members of the ICT sector living and working in the countries and territories which they report on. Many of them are digital pioneers who played active roles in extending the Internet across the Asia Pacific.
